

COSMETIC INSIGHTS

Navigating Cosmetics Trends and Consumer Insights with Tableau

Dashboard Screenshot, Story Screenshot & Tableau Public Links

1. Dashboard Overview

The final dashboard combines five worksheets — Revenue by Category, Average Rating by Category, Revenue Trend, Top Brands, and Revenue by Country — into a single interactive view titled 'Cosmetic Insights: Navigating Cosmetics Trends and Consumer Insights'.

2. Dashboard Screenshot

[Insert your dashboard_screenshot.png here before converting/printing to PDF, or attach it as a separate image alongside this document.]

3. Story Screenshot

[If a Tableau Story (a sequence of dashboard views narrating the key insights) was created, insert its screenshot here. If not yet created, this can be added using Tableau's 'New Story' feature to walk through: Category performance → Trend over time → Top brands → Regional performance → Ratings.]

4. Tableau Public Link

Live interactive dashboard link: [Paste your Tableau Public share link here, e.g., <https://public.tableau.com/app/profile/yourname/viz/CosmeticInsights>]
